

YOU ARE INVITED
TO TAKE THE ASCD'S

**10-STEP
PROGRAM
TO SUCCESS
IN
CHAIRSIDE
CERAMICS**

WITH
DR RAY BECKER
DDS, FAGD

CAD CAM CON5

3-5 SEPTEMBER 2010 | SYDNEY

Chairside CadCam ceramics with Cerec® and E4D® are here to stay.

The ASCD is Australia's premier CadCam dental user group, and we've asked two experienced users to create an exciting and comprehensive course in Sydney, September 3-5, 2010. CadCamCon is three days of stimulating lectures, hands-on clinics plus a dazzling social program. In this 25th year of Cad-Cam Chairside Dentistry, get all the information you need to succeed in this challenging field.

Dr Ray Becker DDS, FAGD is our first keynote speaker. Ray has distilled his success over a long career into the 'Top 10': the 10 most significant areas of practice that have improved his dental life using CadCam technologies.

Our second keynote speaker, Dr Bob Mongrain is a former Cerec Instructor who has embraced E4D and is passionate about 'Same-Day Dentistry'. Bob will detail his experiences with both systems and explore the world of E4D in depth.

Highlights of the course:

Using antagonist impressions with database/biogenics morphology for quick and easy single units, time-effective production of quadrants, and step-by-step impression capture to create perfect virtual models.

Design

- Using antagonist impressions with database/biogenics morphology for quick and easy single units, time-effective production of quadrants, and step-by-step impression capture to create perfect optical impressions

Clinical

- Logical Bonding for speed; eliminate failures in everything from inlays to multiple veneers, prevent washouts, de-bonds, gaps and poor shade matches

How do you make the best use of your significant investment?

- Control 'value-shifting' with adhesives, and prevent 'grey' veneers
- Safe, easy silanation for ceramics
- Lab-based procedures to save clinical time
- Cordless impressions with unparalleled accuracy

Aesthetics

- Clear templates aiding prep and temporisation of multiple unit cases
- One-step stain/glaze furnace technique for optimal aesthetics
- Combine 'cut-back' with a 'colour-mapping' technique for demanding cases
- When, how and why to use appliance therapy for restorative/CadCam Dentistry
- Use 'aesthetic geometries' to analyse, define, and create optimal anterior aesthetics for all modes of restorative dentistry

Your Practice

- Systems and policies to effectively deploy new technologies in your practice
- Understand how to assess patient readiness for procedures

Occlusion and Biometrics

- Learn how to improve CadCam case acceptance with biometric occlusal analysis
- Explore computerised occlusion evaluation systems

About Ray Becker

Ray started with Chairside Ceramics using Cerec 1 in 1991; he's an accomplished presenter, Cerec instructor and beta-tester for Sirona. Ray did so well with CadCamCon 2 at Coolum in 2004 we've invited him back for an update. Ray presented his 'Top 10' in Las Vegas at an international conference recently and we have invited him to reprise this popular presentation in Australia. Please check the expanded program guide to the 10 Steps to Success at www.ascd.org.au for detailed information on this course and other presenters.

Explore E4D with the ASCD

Have you been wondering about E4D? We have invited Dr Bob Mongrain to his first speaking engagement in Australia.

About Bob Mongrain

Dr. Mongrain is currently an advanced instructor for E4D as well as being in private practice in Tulsa, Oklahoma. Bob is a former Cerec user, Board Member of the Academy of CAD CAM Dentistry, and instructor with Rich Masek at Dentistry By Design as well as being an ISCD certified trainer. He is an international speaker and trainer and is active as a consultant on dental materials, digital radiography, digital imaging and technology integration.

The Sky is the limit: Learning the Vocabulary of E4D.

In this program we will introduce the E4D system and how it can impact clinical dentistry. The best way to understand the similarities and differences of the E4D is to learn about it's vocabulary, E4D Dentist, E4D Studio, E4D Labworks,

Autogenesis, ICE, Rapidsan, Clone, Rubber Tooth, SOS, Sky, Compass, Light Box and others.

During the presentation, you'll gain understanding of the E4D system, its general operations and functions as well as clinical applications and techniques. Learn how a different technology approach will change the clinical decisions and workflow when utilising CAD CAM and digital imaging.

CadCamCon 5 will also feature expert presentations and workshops:

'Blue-Block' Science and Practice –

Understanding eMax with Sydney Prosthodontist Dr Stephen Travis. Stephen has been using lithium disilicate for Cerec inlays and onlays, and will detail his experiences in this lecture.

Laser Tissue Management with Dr Robert Aslan, an experienced E4D user and laser Trainer. Robert will present a three-hour workshop; please book on registration.

How to take Clinical Photos and Manage the Digital Workflow with Sydney Prosthodontist Dr Jim Ironside and Phil Ramsden, Medical Imaging Expert from FotoReisel in Sydney. Book when registering for the MiniMasterClass on popular imaging programs (laptop required).

Dental IT with Dr Gerald Loh. Gerald stunned the CadCamCon3 audience with his totally pimped-out Cerec. We've asked Gerald to take a look at office IT issues and computer maintenance.

Ever-popular Table Clinics on Stain and Glaze for Vita Mk II, Empress/eMax; Blue-Block Clinical Basics and a Mini MasterClass on the Cut-back Technique for Chairside Anterior Aesthetics (limited attendance - enquire on registering).

Please visit www.ascd.com.au for full details.

CadCamCon5 Registration Form

CadCamCon 5 Social Program

Catch up with colleagues on Friday night at the ASCD Cocktail Party atop the Intercontinental Hotel against the stunning backdrop of Sydney Harbour. On Saturday night your registration includes one ticket to the ASCD Annual Dinner held at the Museum of Contemporary Art, Circular Quay. The dinner is always a memorable event with a special guest speaker. Additional tickets are available when registering.

Accommodation

A limited number of rooms at the Intercontinental have been reserved for delegates. To ensure you have a room, please complete the accommodation booking form that you will receive with your confirmation. September is a very busy month in Sydney so please book early.

Full Program Information

Go to our website, www.ascd.org.au for complete and updated information on lecturers, workshops, mini MasterClasses, accommodation or to download additional copies of this brochure.

Your registration for this event indicates acceptance of CPD's Terms and Conditions, paying close attention to the Delegate Cancellation/Refunds and Failure to attend sections (available at www.adacpd.com.au)

**FRIDAY TO SUNDAY
3 – 5 SEPTEMBER 2010**

**INTERCONTINENTAL HOTEL
SYDNEY**

CadCamCon 5 is being staged for all users of computerised dental ceramic systems, with information and education for all levels from new user to dentists with intermediate and advanced skill-sets presented in a uniquely inclusive format. Don't miss this opportunity for the complete chairside ceramic educational experience! Attending this conference will satisfy one year (20 hours) of **Dental Board of Australia** Continuing Professional Development requirements (60 hours every three years).

For further information on ASCD Membership or the CadCamCon5 meeting visit www.ascd.org.au
